

Monster Description

Wednesday 9th March, 2016

Have you ever seen a monster that has green fur, bushy eyebrows, giant hands and nail (pols) polish? Wait... she looks disturbing but I don't know about nail polish! she (If) looks really unusal and she stinks like rotten tomatoes! She lives in the basement of our favourite shop and scares people, but how do I get rid of her because she is huge and smells so stinky no one wants to go near her! All I know is her favourite food is chips because after she scares the customers away she eats (there) their^v chips and drink.
